

Matheus Kauan Rodrigues de Souza

Full Stack Developer | C#, .NET and React

+55 (14) 99171-6361 | matheuskrs308@gmail.com | github.com/matheuskrs

Mid-level Full Stack Developer working with C#, .NET, ASP.NET Core, React, Next.js and TypeScript. I build REST APIs, business management systems and applications backed by relational databases such as PostgreSQL and SQL Server. I also mentor interns and teach frontend development.

PROFESSIONAL EXPERIENCE

Nexus | Jun 2026 to Present

Mid-Level Full Stack Developer

- Develop features end to end for a legal management platform using React, Next.js, TypeScript and C#/.NET APIs, on a modular architecture with PostgreSQL.
- Built case and contract management screens with filtering, form validation, CSV export and reusable Ant Design components.
- Improve authentication, role-based permissions and business rules, including data layer changes in Entity Framework Core and unit tests with xUnit.

UPPER Consultoria

Junior Software Developer | Jun 2025 to May 2026

Software Development Intern | Dec 2024 to Jun 2025

- Delivered new features and bug fixes across the company's systems based on team priorities.
- Mentored new interns during onboarding, walking them through the tech stack, system architecture and development workflow.
- Taught the backend and frontend tracks of the FDevs course, guiding students through hands-on projects.

TEACHING EXPERIENCE

Cosmos Educa | Frontend Instructor | Aug 2026 to Present

PROJECTS

Concord | Real-time screen sharing

Multi-user screen sharing app built with React, TypeScript, C# and ASP.NET Core. Real-time communication through SignalR and WebRTC, Discord OAuth2 authentication, PostgreSQL and Docker.

Sinlabs | Web management system

Built React and JavaScript interfaces integrated with an ASP.NET Core API. Features include management of users, labs, roles and permissions, plus lookups for active sessions and access history.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core, REST APIs, Entity Framework Core, SignalR, OAuth2, OOP and SOLID.

Frontend: React, Next.js, JavaScript, TypeScript, HTML5, CSS3 and Ant Design.

Data and Infrastructure: SQL, PostgreSQL, SQL Server, Redis, Docker, Git and GitHub.

Architecture and Quality: Microservices, Clean Architecture and unit testing with xUnit.

AI Integration: AI APIs with guardrails, input and output validation and careful handling of sensitive data.

EDUCATION AND TRAINING

Bachelor's Degree in Computer Science | UNISAGRADO | 2025 to 2029 (expected)

Technical Degree in Systems Development | ETEC | 2024 to 2025

Professional Training in Technology | Barracred Conecta | 2023 to 2024

LANGUAGES

Portuguese (Native) | English (Fluent) | Spanish (Intermediate)
