

Matheus Kauan Rodrigues de Souza

Mid-Level Full Stack Developer | C#/.NET, React and TypeScript

+55 (14) 99171-6361 | matheuskrs308@gmail.com

github.com/matheuskrs | matheuskrs.github.io

Full Stack Developer using C#/.NET, React and TypeScript to build business systems, APIs and web applications. Progressed from intern to mid-level developer, with experience mentoring and teaching programming. Creator of Concord, a live product with over 4,400 registered accounts.

PROFESSIONAL EXPERIENCE

Nexus | Mid-Level Developer | Jun 2026 to Present

- Deliver features for a legal management platform, from understanding requirements to frontend, API and database changes, making implementation decisions and documenting the work delivered.
- Work on case and contract workflows, authentication, permissions and business rules using React/Next.js, TypeScript and C#/.NET, including EF Core/PostgreSQL persistence and xUnit tests.

UPPER Consultoria

Junior Software Developer I | Jun 2025 to May 2026

Software Development Intern | Dec 2024 to Jun 2025

- Developed approval rules for campaign action plans based on user roles, workflow stages and approver sequences, using C#/.NET, SQL Server, Dapper and JavaScript.
- As a junior developer, delivered an end-to-end shipping integration with the Correios API. Reworked the calculation and added per-product caching, reducing repeated API calls and request times.
- Optimized queries in other APIs through caching and pagination, regularly working on service response times during my junior developer role.
- Mentored interns through technical onboarding on the stack, architecture and development workflow, and guided students through practical projects in the FDevs backend and frontend courses.

Cosmos Educa | Frontend Instructor | Aug 2026 to Present

- Prepare and teach HTML, CSS, JavaScript and Git lessons, with practical projects, code reviews and guidance on publishing to GitHub Pages.

PROJECTS

Concord | Creator and developer | concord.app.br

- Independently built, deployed and maintain a real-time screen-sharing platform. The product reached 15,000+ unique visitors in a 30-day period and 4,400+ registered accounts.
- Built simultaneous screen sharing with WebRTC and SignalR signaling, using React/TypeScript and ASP.NET Core, with Discord OAuth2, PostgreSQL and Docker.

Sinlabs | Laboratory management system

Built the React frontend integrated with an ASP.NET Core API, covering user, laboratory, system and permission management, plus active session and access history queries.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core, REST APIs, Entity Framework Core, Dapper.

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS.

Data and infrastructure: PostgreSQL, SQL Server, Redis, Docker, Git.

Architecture and quality: Clean Architecture, microservice integration, xUnit.

EDUCATION

Bachelor's Degree in Computer Science | UNISAGRADO | 2025 to 2029 (expected)

Technical Diploma in Systems Development | ETEC Comendador João Rays | 2024 to 2025

Professional Training in Technology | Barracred Conecta | 2023 to 2024

Languages: Portuguese (Native) | English (Fluent) | Spanish (Intermediate)
